Subject: Request to Suspend Water Monitoring Horse Canyon

Hi Pam:

Attached you will find a request to suspend water monitoring in Horse Canyon. A hard copy is being sent by mail. I have discussed this with Dave Darby.

If you have any questions please call.

Thanks

R. Jay Marshall

Re: Request to Suspend Water Monitoring, Horse Canyon Mine, UtahAmerican Energy, Inc.
(UEI), Horse Canyon Mine ACT/007/013

Dear Ms. Grubaugh-Littig,

A Phase III bond release application for the Horse Canyon Mine was filed with the Division on January 3, 2006 and is now under review. Previously Phase I and Phase II bond releases have been obtained by UtahAmerican Energy, Inc. ("UEI").

Redden Spring (RS-2), HC-1, HC-2 and RF-1 have been monitored on a quarterly basis throughout the entire reclamation process.

UEI requests that water monitoring be suspended for RS-2, HC-1 and RF-1. Since a small area, near the reclaimed refuse pile, may be held for an extended liability period, monitoring on HC-2 will continue according to the approved MRP. HC-2 is downstream of the area that might be held for an extended liability period and would reflect any contribution from that area.

UEI respectfully requests that all water sampling be suspended for sites RS-2, HC-1 and RF-1 be suspended beginning with the 2nd Quarter, July 1, 2006.

This application is being submitted by email and a hard copy by US Mail.

Should you have any questions please call.

Sincerely,

Ray Marshall
Vice President
